G Read the following text and mark the statements as *T* (true), *F* (false) or *DS* (doesn't say).

The Do's and Don'ts of Classroom Behaviour

Since school is the place where you spend a good part of your day, it's a good idea to have a few rules regarding classroom etiquette in mind.

To begin with, it's always nice to greet your teacher and the other students when you walk into the classroom. If you go to class after the lesson has already started, it's polite to apologise to your teacher. During the lesson, you need to respect your classmates, as well as your teacher. That means you should pay attention to others when they're speaking to the whole class, and you shouldn't talk to those next to you while the teacher is trying to explain something.

Of course, all this doesn't mean that the classroom environment needs to be strict and boring. Your teacher will certainly appreciate it if you have something funny to share with the rest of the class. Also, if you have any fresh and creative ideas about a class project or trip, your teacher will be more than willing to hear about them. After all, teachers run out of ideas too! Remember, teachers were once students themselves, and they know very well that every now and then, the class needs to do something different from their usual routine and, above all, they know that learning should be fun!

1) You should never talk when entering the class.

2) If you are late, you need to bring a note from your

parents. 3) You should never talk in the classroom.

1. It's OK to tell a joke in the classroom.

2. You should feel free to make any suggestions related to school matters to your teacher.

1. Прочитайте тексты и установите соответствие между текстами A–F и заголовками 1–6. В ответ запишите цифры, в порядке, соответствующем буквам. Используйте каждую цифру только один раз. В задании есть один лишний заголовок. **(5points)**

1. Tomorrow's vegetables.
2. Environment in danger.
3. Additions to your food.
4. Genetically modified food.
5. Fast food.
6. Unhealthy eating habits.

A. Fast food and packaging come together. When you have eaten the beef burger, you throw away the packaging and somebody will then burn or bury it. This is clearly a problem. Fast food also contributes to global warming. In Brazil, 12 million acres of forest were cut down to build farms. Farmers use this land to grow soya beans and soya is given to the cows that become the beef in your beefburger. Fewer forests mean more global warming.

B Traditional methods of cooking and eating are disappearing, and are being replaced by fast food and ready-prepared meals. As a result, people today (especially children) have too much sugar, too many sweet drinks, too much white bread. This makes people's level of blood glucose go up, causing tiredness, nervousness and headaches. Among schoolchildren it can also cause low concentration and bad behaviour.

C. A lot of fast food contains ingredients that have been changed by scientists to be different: the tomatoes in the tomato sauce, the flour in the bread. How is it possible that you can buy a bright red tomato in Moscow, that comes from Cyprus, that is still fresh after four weeks? But the changes are not always bad. Some plants can be modified to provide more vitamin C, for example.

D. Not many children like vegetables. It has been proved that eating vegetables in childhood helps to protect you against serious illness in later life. So yesterday chocolate-flavoured carrots went on sale in Britain as part of a campaign to encourage children to eat vegetables. The range of products also includes cheese-and-onion flavoured cauliflower, pizza-flavoured sweetcorn, and peas that taste like chewing-gum.

E. You should expect to find a lot of chemical ingredients in fast food. None of them are good for your health, but not all of them are bad. Chlorine is used to make bread white. Cochineal (made from dried insects) is used to make things red. However, more research is needed to find out exactly how these chemicals will affect our health in years to come.

Living in a city

Living in a city has both advantages and disadvantages. On the plus side, it is often easier to find job, and there is usually a choice of public transport, so you don't need to own a car. Also, there are a lot of interesting things to A_____ and places to see. For example, you can eat in good restaurants, visit museums, and go to the theatre and to concerts. What is more, when you want to relax, you can usually find a park where you can B_____ the ducks or just sit on a park bench and read a book. All in all, city life is full of bustle and variety and you need never feel really bored.

However, for every plus there is a minus. For one thing, you might have a job, but unless it is very well-paid, you will not be able to C_____ many of the things that there are to do, because living in a city is often quite expensive. It is particularly difficult to find good, cheap accommodation. What is more, public transport is sometimes crowded and dirty, particularly in the rush D_____, and even the parks can become very crowded, especially on Sundays when it seems that every city dweller is looking E_____ some open space and green grass.

In conclusion, I think city life can be particularly appealing to young people, who like the excitement of the city and don't mind the noise and pollution. However, many people, when they get older, and particularly when they have young children, often prefer the peace and fresh air of the countryside.

Задание 2

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов **A–F** содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите ваши ответы в таблицу.

1. Where can we find the biggest "lungs" of the Earth?
2. What is the largest country in the world?
3. What are the impressive achievements of Russian space programme?
4. Which Russian souvenir is the most popular among the tourists?
5. Where in Europe can we find the biggest collection of books?
6. What are the impressive facts about Siberian Lake Baikal?
7. Which role does Russian language play in the world?

A. Russia, also officially known as the Russian Federation, is the largest country in the world. Its territory is 17,075,400 square kilometers. According to scientists, the country's territory would almost cover the surface of the planet Pluto. It is the only country which is washed by 3 oceans and 12 seas. Russia is considered to be a European country, but two-thirds of the country are in Asia. However, most of the population lives in the European part of Russia.

B. Siberian Lake Baikal is the largest pool of fresh water on the planet. All the 12 major rivers of the world (the Volga, the Don, the Yenisei, the Ob, the Ganges, the Amazon, etc.) would need to flow almost a year to fill a pool equal to the volume of Lake Baikal. Another impressive fact is that even if all the rest of the planet's fresh water supply were to disappear, there would be enough fresh water left in Lake Baikal to supply the people of the earth for up to 50 years.

C. Russia is the country with the largest forest reserves in the world. 45% of its territory is covered in green forests. The forests are located in the European north of the country, in Siberia and in the Far East. Forests play an important role in the life and welfare of people. Russian forests are the biggest "lungs" of the Earth. They produce oxygen and clean the atmosphere of carbon dioxide and other pollutants.

D. There are more than five thousand languages in the world. Russian is one of the five

major world languages. 280 million people around the world speak Russian and it is one of the most widely spoken native languages in Europe. The United Nations uses Russian as one of the official languages of the organization. It is also used in international commerce, politics, academic and cultural life.

E. For its collection of books, the Russian State Library is considered to be the biggest in Europe and one of the largest in the world. The Russian State Library was founded in 1862, in Moscow. The library has over 275 km of shelves with more than 43 million items, including books, journals and magazines, art publications, music scores and sound records, maps and other things. There are items in 247 languages of the world.

F. Russia is known all over the world for its space programmes. In 1957 the Soviet Union launched Sputnik 1, the first artificial satellite in the world. Four years later, in 1961, human space flight was accomplished. Soviet cosmonaut Yuri Gagarin was the first man to journey into space. He orbited the Earth and landed the same day. There are other impressive space achievements of the country like the first long space flight, the first woman cosmonaut in space, and the first spacewalk.

1. Difficult life
2. First success
3. Personality
4. Popularity
5. Successful lifestyle
6. Free-time activities

A. Liza Smith is a successful British singer. Her smiling face appears on the covers of international magazines, and every year she travels to many different parts of the world to perform concerts to millions of fans.

B. However, life used to be very different for this bright young star from Bristol. She lived in a small terraced house with her parents and three brothers. They didn't have a lot of money and she worked as a cleaner to make ends meet. She used to buy clothes from second-hand shops.

C. In her free time she used to sing in the college choir. She learnt the words to every pop song and people hired her to sing at parties. Her friends liked her voice a lot and persuaded her to send a cassette to a record company. That's how it all started and her life changed completely.

D. Today Liza lives in a large house with a big garden just outside London with her husband and her daughter. She looks very elegant in her chic designer clothes. She goes to the gym every day to keep her body in shape. In her free time she enjoys going to the theatre or to parties.

E. Liza's lifestyle has changed a lot since those days in Liverpool. I think I'm very lucky to lead the life I lead today. It's not easy, though, because I don't have the privacy that I used to have. Still, I have a lovely family and a very promising career. What else could I ask for?' she says.
